(a) Before similarity search processes, 0
'similarity' links

(b) After similarity search processes, 4
'similarity' links forming a cycle

Nodes		Links	
Agent	3	'knows'	3
Work	3	'owns'	3
Item	6	'demands' / 'offers'	6

Figure 1: Graph mutations due to similarity search process illustrated on the toy graph.

(a) Before similarity search processes, 0
'similarity' links

(b) After similarity search processes, 46.574
'similarity' links

| Nodes		Links	
Agent	75	'knows'	74
Work	153	'owns'	153
Item	306	'demands' / 'offers'	306

Figure 2: Visualization of larger mutations due to similarity search process.
